### *Report on Humanitarian action for the earthquake-affected areas in Croatia*

The humanitarian action of the Croatian Ergonomics Society (31.12.2020 - 27.03.2021) started after the devastating earthquake that affected Croatia on 29 December 2020. It started by the decision of the Executive Board of the Croatian Ergonomics Society, dated from 31st December 2020 and it was successfully completed on 27th March 2021 when the recipient of the donation, Mr. Štefan Rožanković, from the settlement of Greda in the town of Sisak and his family (a 20 month toddler and two older children aged 14 and 20 years of age) received a donated mini kitchen with accompanying equipment, which was installed in the previously donated new housing container on 9th of February 2021 (manufactured by Tehnix d.o.o.) in accordance with the decision of the Executive Board of the Croatian Ergonomics Society dated from the 8th of February 2021.

The family house of Štefan Rožanković was severely damaged in the first earthquakes, and the following earthquakes completely destroyed it (on February 16, 2021, the orange sticker was replaced with a red sticker, and the remainings of the house were intendede for demolition).

With the mediation of members of the Railroad Engineer Trade Union of Croatia (SSH), the company Komunalac Vrbovec joined the humanitarian action and donated the service of transporting a housing container from the factory Tehnix d.o.o. in Donji Kraljevec to the recipient's location in Greda.
